U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
on FEBRUARY 19, 1978
- Export Shipments in
Current Marketing Year
- Daily Sales Reported
FEBRUARY 20 - 26, 1978
--As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of March 2, 1978 (based on reports from exporters for the week ending February 19, 1978, unless otherwise noted).

Wheat: New sales (650,300 metric tons) were significant with Brazil and Korea accounting for more than 80 percent of the net increase. Business for MY 1978/79 picked up slightly (257,500 MT) with notable sales to unknown destinations and Brazil. Sales reported under the daily system included 100,000 MT switched to the USSR from unknown for MY 1977/78 and USSR's purchase of 100,000 MT for MY 1978/79. Also included were two transactions with Morocco for 1977/78. Optional origin sales of 100,000 MT and the declaration of the U.S. as the origin on optional origin sales of 100,000 MT. Assignments of final destinations and contract adjustments resulted in a net decrease in sales previously reported to unknown. The export rate continues to improve moderately.

Corn: A significant improvement in sales activity from the preceding week's extremely slow pace was reported. Major buyers included Japan, Korea and unknown destinations. Assignments of final destinations on sales previously reported to unknown and other minor contract adjustments nearly offset new sales to unknown destinations. Sales of 54,400 MT previously reported to the USSR were switched to Belgium. Under the daily reporting system, sales to the USSR totalled 1,350,000 MT for MY 1977/78 (850,000 MT switched from unknown and new sales of 500,000 MT), while Japan bought 153,416 MT for the current MY and 50,800 MT for MY 1978/79. Exports of 849,600 MT were significantly below last week.

Oats: For the first time in weeks, significant activity was registered in the market as Japan purchased 10,200 MT.

Sorghum: Market activity continued moderate. A number of new sales, destination changes and contract adjustments were reported. Japan added 130,700 MT to their total purchases while Israel purchased 32,100 MT. The U.S. was designated as the origin on 36,100 MT of option origin sales to Romania. Exports continued fairly heavy.

Rice: Actual exports continued to be the major feature in the marketplace as new sales continued modest. Exports were the heaviest in weeks, as Indonesia shipped against outstanding PL-480 purchases. Saudi Arabia and the Republic of South Africa were the major commercial buyers. Guinea's purchase of 5,100 MT of milled long grain was the only PL-480 Title I business.

Cotton: Sales activity continues brisk. Volume for current MY and MY 1978/79 was the second largest this season. Canada, Japan, Korea and Taiwan added significant quantities to MY 1977/78 purchases and Korea and Japan also added significantly to MY 1978/79. Exports of 138,500 RB were a record so far this MY, 85 percent going to Asia.

Soybeans: Sales (384,400 MT) picked up as the EC and Japan added 296,700 MT and 79,000 MT, respectively. Under the daily system, exporters reported sales of 200,000 MT to the USSR for 1977/78, principally a switch from unknown. The EC and Taiwan added to 1978/79 purchases. Exports (349,700 MT), although down from the preceding week, continued strong with the EC (224,100 MT) and Japan (101,800 MT) being the principal recipients.

Soybean Cake and Meal: Sales (171,100 MT) continued moderately strong as substantial new sales were reported along with destination assignments on previously unknown destination sales. Exports (134,300 MT) increased 52 percent with Europe and Japan again accounting for most of the outgo.

Soybean Oil: A 10,000 MT sale to Pakistan under PL-480 accounted for most of the 15,400 MT sales registered during the week. Exports (22,700 MT) included PL-480 shipments to Pakistan of 14,900 MT and 5,500 MT to Peru under CCC Credit.

Barley: Showed no significant activity.

SUMMARY OF CURRENT WEEK'S TRANSACTIONS BY REPORTING CATEGORY
For Week Ending February 19, 1978

Data shown above may not add due to rounding. 1/ Includes increases resulting from new sales, upward contract adjustments, shifts in delivery period from one marketing year to another and changes from one commodity to another. 2/ Net foreign purchase activity. A purchase from a foreign seller is a transaction contracting to buy U.S. produced commodity from a firm outside the U.S. -- not involving a cancellation or buy-back of a reported sale. 3/ Includes decreases resulting from buy-backs of all or part of a contract balance by mutual consent, unilateral cancellation by one party which could result in a contract dispute, downward contract adjustments, shifts in delivery period from one marketing year to another, and changes from one commodity to another. 4/ Does not include exports for exporter's own account.
